

Middle School Summer Math

This summer, students will be working on Khan Academy throughout the summer to continue practicing their new math skills. Students are expected to sign in with their school google account and work on any areas of math they feel they need to practice. It is expected that they spend 30 minutes each week. Assignments will be listed with a due date of September 1st. Students are expected to work within these assignments, but not required to complete all the assignments. Teachers will assess the completed work at the start of the 2021 school year and give a quiz grade based on the completed work. Students will not be penalized for missing weeks, but will be given a larger quiz grade for the more weeks that they complete. Your student should be signed into their future teacher's khan academy account using the codes below:

Mrs. Orlando's incoming 6th Grade: **D5UHPAE7**

Mr. Souza's Incoming 7th Grade Traditional Math: **JPTX5JPK**

Mrs. Orlando's Incoming 7th Grade Accelerated Math: **QVVK8JYFK**

Mr. Souza's Incoming 8th Grade: **HQSGPFDA**
